WJCT.E118904 Switches, Photoelectric

Switches, Photoelectric

LEVITON MFG CO INC
59-25 LITTLE NECK PKY
LITTLE NECK, NY 11362 USA

E118904

Infrared motion detector, Cat. No. ODC0S, followed by I1W or 17W.

Motion detectors, Cat. Nos. ACP10, IPP10, ODS0D-1D, ODS10-1D, ODS10-3, PR150, PR180, 6800, 6793, IPP15, ACP15, IPPOR, ACPOR.

Cat. Nos. ODS0D, ODS10-1D, 16775.

Cat. No. OSFH, followed by A, B or U, may be followed by four additional suffixes.

Occupancy sensors, Cat. No. OSSMT; Cat. Nos. OSSNL-Idx, OSS10-LDx, where "x" may be any letter.

Photoelectric switches, Cat. No. 6768 or ODS15-1D, suffixed by numbers 1 through 10 and/or letters A through Z.

Raintight infrared motion detectors, Models OS-120, -127, HL-200, PS-110, PS-200, RS-110.

[See General Information for Switches](#)

This listing covers photoelectric switches and motion detectors for use in nonindustrial locations, rated 250 V, 2000 VA, maximum. Switches which have been investigated for the control of tungsten filament lamp loads are marked "Tungsten". Switches which have been investigated for the control of fluorescent lamp ballast loads are marked "Ballast".

Investigation of devices listed as "Rain tight" includes a test designed to simulate exposure to beating rain to determine that such exposure will not result in the entrance of water.

Photoelectric switches and motion detectors designed to provide protection for mercantile premises, stock rooms, safes, vaults, etc. are covered under Intrusion Detection Units ([ANSR](#)).

See Industrial Control Equipment for the Listing of industrial types of photoelectric switches and motion

detectors.

These switches have been tested to determine their acceptability for continuous operation at their marked load rating.

For additional information, see Electrical Equipment for Use in Ordinary Locations ([AALZ](#)).

The basic standard used to investigate products in this category is [UL 773A](#), "Nonindustrial Photoelectric Switches for Lighting Control".

The Listing Mark of Underwriters Laboratories Inc. on the product is the only method provided by UL to identify products manufactured under its Listing and Follow-Up Service. The Listing Mark for these products includes the UL symbol (as illustrated in the Introduction of this Directory) together with the word "LISTED," a control number, and the product name "Photoelectric Switch" or "Motion Detector Switch" ..

The appearance of a company's name or product in this database does not in itself assure that products so identified have been manufactured under UL's Follow-Up Service. Only those products bearing the UL Mark should be considered to be Listed and covered under UL's Follow-Up Service. Always look for the Mark on the product.

UL permits the reproduction of the material contained in the Online Certification Directory subject to the following conditions: 1. The Guide Information, Designs and/or Listings (files) must be presented in their entirety and in a non-misleading manner, without any manipulation of the data (or drawings). 2. The statement "Reprinted from the Online Certifications Directory with permission from Underwriters Laboratories Inc." must appear adjacent to the extracted material. In addition, the reprinted material must include a copyright notice in the following format: "Copyright © 2007 Underwriters Laboratories Inc.®"
