

CERTIFICATE OF QUALITY AND CONFORMITY

To: Whom It May Concern

Date: 25 June, 2007

Acuity Brands Lighting certifies that it's products, including ballasts and components, are manufactured in accordance with the latest applicable Underwriters Laboratories (UL) standards as well as the NEMA (National Electrical Manufacturers Association) and NEC (National Electrical Code) standards. Most products are also certified by CSA or CUL in Canada as well as ANCE in Mexico (NOM).

UL inspectors visit our factories on a regular basis to inspect the products on the assembly line and to verify products are manufactured in accordance to UL standards.
